**Feedback on Academic Performance & Ambience from Employer**  
**Action Taking Report**

Sr. No.	Comments	Action Taken
1.	Would recommend to include more pharmaceutical industry based insights and practical exposure in the curriculum.	Industry Connect Conclave planned in Academic Year 2024-25 in order to bridge the gap between academia and industry.
2.	Students can be more exposed to session on work life, general changes that may help them to be better prepared for work life in comparison with life.	The objective of the conclave would be- <ul style="list-style-type: none"><li>- To foster professional competence</li><li>- To ensure better career readiness for students</li><li>- To address the current challenges faced in industry.</li></ul>
